

Project Information

Visit the J. Percy Priest website at http://www.lrn.usace.army.mil.op/jpp/rec/.

Reservations for Campsites and Picnic Shelters

For campsite and picnic shelter reservations, contact the National Recreation Reservation Service (NRRS). Reservation planning is easy, quick, convenient and effective. Developed campground camping is permitted by reservation and on a first come basis. Picnic shelter use is permitted by reservation and on a first come basis. To reserve your campsite or shelter at J. Percy Priest Lake or any other Corps of Engineers Project, call the NRRS toll free at 1-877-444-6777, or visit the NRRS website at www.recreation.gov. For the hearing impaired, call toll free at 1-877-833-6777.

Golden Age and Golden Access Passports

The Golden Age and Golden Access Passports are lifetime use fee discount cards honored at certain federal facilities. The Golden Age Passport is specifically for persons aged 62 and over, and the Golden Access Passport is for persons who are blind or permanently disabled. These passports provide a 50% discount on federal use fees charged for facilities and services such as camping, swimming, parking and boat launching. Although the Corps of Engineers is no longer authorized to issue Golden Age or Golden Access Passports, we do still honor existing cardholders.

The new America the Beautiful Senior Passport and America the Beautiful Access Passports are now issued by several federal agencies. Although the Corps of Engineers is not authorized to issue these passports, we do accept them for 50% discount for services and facilities similar to Golden Age and Golden Access cards. For information pertaining to obtaining an America the Beautiful Passport, contact the Resource Manager's Office.

Life Jackets Save Lives!

Life jackets (or Personal Flotation devices - PFD) is your best insurance when on or around the water. In many instances, recreational visitors finds themselves in water unexpectantly, and life jackets can offer protection. Be sure to have and wear the proper size and type of life jacket for the activity you are participating in. Once you are in the water, it may be too late to think about putting one on. For further information regarding the Corps of Engineers Water Safety

program, visit the website at https://watersafety.usace.army.mil.
